ACKNOWLEDGMENTS

This research was sponsored by the scholarship program of Telkom University. It would not be achieved without the assistance and supports from many people around me. I sincerely express my great gratitude to both of my pillared supervisors, **Jimmy Tirtawangsa, Ph.D**. and **Hertog Nugroho, Ph.D**. for their encouragement, help patients, knowledge, and experiences. They always brighten my way to move on the right path of conducting the research. I would like to highlight special thanks to **Thomas Anung Basuki, Ph.D**. who contributed his effort and opinion to enhance my progress.

I kindly thanks to all of the directors, lecturers, and staff at Telkom University for providing the education and all conveniences including academics, campus life, and visa immigration procedures. I also would like to show my appreciation to all of my friends, such as Kingsley Alex Katandawa, Adriana Kurniawan, I Gede Manggala Putra, Yudha Viki Alvionata, and classmates for sharing their perceptions and ideal studies during classes.

After all, I highly satisfy all motivation and encouragement from my family, relatives, friends, and seniors by either person or distance although I could not list them one by one. I am deeply thankful to them for their attention.

Kind regards,
Pov Vandeth
