Abstract : Human has two aspect of needs that must be fulfilled by every person, the first aspect is physical needs and the second one is spiritual needs. Church is a place where Christians do their spiritual activity. As time goes by, Christianity split into multiple doctrins. One of the Protestant denominations is lutheranism, lutheranism has 14 kinds of churches, one of which is Huria Kristen Batak Protestan (HKBP). Although all 14 churches have some distinctive characteristics in terms of its worship, but the interior design often has the same design. Even in some cases, the lutheranism church and the other denomination church also have the same design. This phenomenon also occurs at HKBP Riau Martadinata church in Bandung city. This redesign is intended so the interior design of this church has its own identity or characteristic that can be distinguished from the other churches. There were two identities, namely as the lutheranism church, and as the HKBP church. The final design is expected to provide the identity of this church through its interior design.

Keywords : Church Design, Church, HKBP, Lutheranism, Batak Toba, Batak Church.
