ABSTRACT

The spa and reflection of its existence break out in large cities, one of them is in Bandung. This has been one of a harbinger of the increasing needs for relaxation, after left the days preoccupied with any kind of activity exhausting. Among many the spa and reflection is most popular among them is a spa and reflection first traditional concept. Selection of Traditional Central Java as a design concept and Reflexology Spa Family this time is one of the advantages of the best Traditional treatment which is owned by Indonesia. Between the traditional herb native to Indonesia and Traditional treatment techniques typical of Central Java, Central Java is also famous for the character designs. The layout and rules of construction are applied carelessly and blend with the environment so as to create an impression relax. Family and Reflections Spa is designed in Bandung, which design and Reflections Family Spa provides treatments and massage facilities with a unique concept according to the traditional Central Java as one of the complementary facilities.
