

ABSTRACT

The memorizing activities of the Qur'an are important because of the many benefits that are contained therein, by memorizing the Qur'an, the hafidz or hafidzah can continue to remember the content of the Qur'an even though it does not carry the holy book of the Qur'an, The Qur'an can be implemented in life wherever and whenever. According to the survey results of some private tahfidz institutions in Indonesia, facilities for the introduction of the importance of tahfidz Al-Qur'an and tahfidz activities for the general public are still lacking. The survey results show some tahfidz institutions have not provided a special area of memorization that is ergonomic and support in terms of space factor. Comfort in terms of visual and thermal is considered still not fulfilled, the needs and completeness of space is also still not adequate. In addition to the tahfidz area, the media to convey the importance of memorizing the Qur'an to the general public is also still less attractive, whereas the nursery of Al-Qur'an memorization is not only focused on program activities, but also the promotion media. The design of the modern Qur'an tahfidz center with the innovation of the learning system through interior elements needs to be done to facilitate tahfidz activities that raised the concept of nursery in the spirit of memorizing the Qur'an to the general public. The concept of breeding is in the form of developing the interest of memorizing Al-Qur'an through the information corner of basic education and tahfidz benefits, and the development of educational facilities to memorize Al-Qur'an with complete facilities, modern and interesting. The purpose of this design is to design the interior of Tahfidz Al-Qur'an Center Bandung that can realize comfort and tranquility, interesting and functional in the process of memorizing Al-Qur'an and design a special area that can be a means of introduction tahfidz Al-Qur'an for general public. This is to cultivate the spirit of memorizing the Qur'an and to grow a new generation of Al Qur'an memorizers not only in terms of quantity but also quality.
