

ABSTRACT

CV. Mitra Garasindo is a service company engaged in car rental located in Bandung, West Java. This car rental has been around since 2015 until now. The car rental process is carried out by the customer where a customer fills in personal data and selects the type of vehicle and the date of use, where before taking the vehicle to the garage the customer is obliged to make an initial payment as proof of rental to the CV. Garasindo Partners. The development is carried out using the waterfall method. For the tests carried out using the *Black Box Testing* method.

Keywords: Leasing, salary expense, CI Framework, MySQL, Waterfall.
