

LIST OF TABLES

Table 1-1 Summary of Previous Method.....	2
Table 1-2. Strength and weakness of type of methods	3
Table 1-3 Characteristic of Earthquake	6
Table 2-1 Example of dataset	9
Table 3-1 K-Means Clustering Algorithm.....	15
Table 3-2. Result of each cluster	17
Table 3-3 Define input of SPM.....	18
Table 3-4 Output from defining input of SPM	18
Table 3-5 Centrality Measurement Earthquake Location.....	20
Table 3-6 PrefixSpan Algorithm.....	21
Table 3-7 RuleGrowth Algorithm.....	21
Table 3-8 Combination result of SRM and Centrality Measurement.....	23
Table 3-9. Table how to calculate accuracy of SRM.....	24
Table 4-1 Total Experiments for this research.....	25
Table 4-2 Rule of first experiment.....	26
Table 4-3 Rule of tenth Experiment	28
Table 4-4 Comparison between previous methods and proposed method	31
