

ACKNOWLEDGMENTS

I would like to praise myself that I had been through hard times. I had much weakness in writing this thesis, motivation was almost gone. But I had a lot of friends who helped me externally such as, given me more motivation, and provided a place for me to do my thesis. I was proud of myself because with all efforts, my thesis could be completed with title “Earthquake Prediction using Sequential Pattern Mining and Complex Network Analysis”. I would like to thank:

1. My supervisor Mrs. Dade Nurjanah, Ph.D. and my second supervisor Mrs. Yanti Rusmawati, Ph.D. for their continuous guidance and immense knowledge.
2. Chairperson of the jury Jimmy Tirtawangsa, Ph.D., and jury members Mr. Arief Bijaksana, Ph.D. and Mr. Agung Toto Wibowo, Ph.D. for their comments and suggestions that makes this thesis better.
3. Mr. Virga Librian as Data and Information Coordinator in BMKG class 1 for all explanation about Earthquake in Indonesia
4. Mrs. Ade who give me a chance for internship while studying.
5. Mr. Donni who always asked me about progress of my thesis and motivate me to complete my thesis.
6. Mr. Ferry who always given me a place for my thesis each weekend.
7. Hauna anja who always motivate me to straight away, keep spirit, do not add another semester again.
8. My fellow of S2 Telkom University who always encouraged each other.
