

ACKNOWLEDGEMENT

First and foremost, I want to thank God Almighty for providing me with the chance and strength to complete my thesis. I want to express my heartfelt gratitude to my parents and family for their unending support throughout this process.

I also want to thank my supervisors, Mr. Istikmal and Mr. Arif Indra Irawan, for guiding me through to this project and Mrs. Retno as well as Mrs. Andini for their continuous support throughout my early university years.

I am grateful to my close friends who have assisted and accompanied me during my time in university. I'd also like to thank my classmates from TT-39-INT and TT-40-INT classmates for their companionship, as well as the Core Network Laboratory whose members helped pave the way into my research for my thesis.

Finally, I want to express my heartfelt gratitude to everyone who has assisted and supported me in the creation of this thesis.
