

## ACKNOWLEDGMENT

All praises to be God All praises be to the God Almighty, Allah SWT. with His mercy and blessings, I can take the International ICT Business major at Telkom University and be able to complete this mini thesis entitled **“Analyzing Dating Application Adaption Towards Behavioral Intention Using a UTAUT 2 (Case Study: Premium User Bumble in Indonesia)”** proposed as one of the requirements for obtaining the bachelor’s degree in management. I would like to thank God Almighty for providing me with this wonderful opportunity to undertake this mini thesis. Through this mini thesis I gained so much valuable knowledge. Hopefully this research will present and benefit to the academic world, especially in Indonesia. During the process of arranging, writing, and completing this research, I was supported by amazing relatives who also gave me strength and life lessons which can be taken as a handle for the future steps. I would like to say my deepest thank you to:

1. Mochamad Yudha Febrianta.,S.T., M.M. as my supervisor and my motivator to keep me attempt and put my best effort in conducting this research
2. The Reviewers for the constructive feedback
3. My Parents; Deni Setiawan and Fifi L Hamid for the endless support and unconditional love in every step I took
4. Dr. Irni Yunita, S.T., M.M as my academic supervisor who always guiding me since I entered this college from the first semester until now
5. Devi A Walean who always supports me like my big sisters.
