

Abstract

Since Rasulallah Muhammad SAW was sent by Allah SWT to broadcast Islam to all people in the world, there are at least 3 major wars of Islam that have ever occurred. That was done by the Prophet in a forced state, for self defense. The names of the wars were the War of Badar, the War of Uhud and the War of Mu'tah. But over the times many have forgotten the history of the war, so it is important for us to study it again. Learning it is very important for us, especially Muslims, not only to recall about its history but we can deepen it as a science that can help us to build the soul of Islam in our lost hearts. With the development of technology at this time, and the enormous influence in conveying all kinds of information that exist in this world can be a benchmark for finding various ways that everyone cannot forget history. The process of delivering information cannot be doubted in human life, including the younger generation. With the use of technological developments, it can improve time, cost and energy efficiency and simplify and accelerate human work. One of the developing technologies is Game. So from that it is better if there are games that can help in learning or recalling history. The game that will be made is a Turn Based game that explains the history of the 3 major wars of Muslims during the time of Prophet Muhammad S.A.W. namely the War of Badar, the War of Uhud and the War of Mu'tah.

Keywords: *the great war of Muslims, the War of Badar, the War of Uhud, the War of Mu'tah, the game, Turn Based.*
