

LIST OF FIGURES

Figure II. 1 Comparison between system quality model	14
Figure II. 2 Series of ISO/IEC 25000	16
Figure II. 3 Two dimensions of ISO/IEC 25010.....	18
Figure II. 4 Software Product Quality Characteristics	19
Figure II. 5 Quality in Use Characteristics	20
Figure III. 1 Conceptual Model.....	25
Figure III. 2 Systematic Research	27
Figure III. 3 Range of Value	39
Figure IV. 1 Company Logo	40
Figure IV. 2 NDE system appearance.....	43
Figure V. 1 Range of efficiency result	53
Figure V. 2 Range of satisfaction result.....	58
Figure V. 3 Range of context coverage result.....	61
Figure V. 4 Descriptive analysis result of 5 characteristics	62
Figure V. 5 Questionnaire result of efficiency	63
Figure V. 6 Questionnaire result of satisfaction 1.....	64
Figure V. 7 Questionnaire result of satisfaction 2.....	64
Figure V. 8 Questionnaire result of context coverage.....	65
Figure V. 9 Scatter graph of efficiency characteristic reliability	68
Figure V. 10 Scatter graph of satisfaction characteristic reliability.....	69
Figure V. 11 Scatter graph of context coverage characteristic reliability	69
Figure V. 12 Scatter graph of efficiency characteristic validity	70
Figure V. 13 Scatter graph of satisfaction characteristic validity	71
Figure V. 14 Scatter graph of context coverage characteristic validity	71
