

PREFACE

Alhamdulillah thanks to Allah S.W.T., I would like to express my gratitude to the individual or individuals who have shown me blessings and mercy in completing my thesis titled "Feasibility Analysis of Advanced Metering Infrastructure for Smart Metering Based on LoRaWAN in PLN Bandung." This thesis is a requirement for my Master's program in Electrical-Telecommunication Engineering, with a specialization in Regulation and Management of Telecommunication (RMT), at Telkom University's Electrical Engineering School.

I am aware that this thesis is not without its flaws, as it is a result of my own limitations. I welcome constructive compliments and suggestions to enhance the quality of this thesis. You can send your feedback to my email address: syahbakdan@gmail.com. Despite these limitations, I hope that this thesis can make a valuable contribution and provide benefits for further education and research.
