

ABSTRACT

MTS Assaidiyyah is a middle school located in Islamic Education Foundation of Cianjur. MTS Assaidiyyah founded in 1984 with the educators in MTs Assaidiyyah amounted to 78 employees. In determining the salary of each employee in MTs Assaidiyyah measured based on the calculation of Attendance employees every day. Attendance conducted by each officer made in a book attendance which are filled every morning and afternoon. In conducting the management of payroll and attendance, MTs Assaidiyyah collect it into a paper report file in the filed. This could cause a paper report attendance and payroll clerks missing or scattered. Attendance reports and record-keeping of payroll clerks are less effective, because one day if Administrative Unit need it, they have to find the data one by one, other than that General Journal in MTs Assaidiyyah still use manual recording, and they are not posted into the ledger. Payroll management application expected to handle salary calculation of fixed and movable employees. Beside that, this application will result journals and ledgers. This application expected to facilitate the Administrative Unit of MTs Assaidiyyah to manage the payroll employees.
