

LIST OF TABLE

Table II. 1 Simple taxonomy of system element interactions (Pimmler and Eppinger ,1994).....	33
Table II. 2 Spatial Interaction Quantification Scheme (Pimmler and Eppinger ,1994)	34
Table II. 3 Energy Interaction Quantification Scheme (Pimmler and Eppinger ,1994)	34
Table II. 4 Information Interaction Quantification Scheme (Pimmler and Eppinger ,1994)	34
Table II. 5 Information Interaction Quantification Scheme (Pimmler and Eppinger ,1994)	35
Table II. 6 Elements and expression	36
Table II. 7 Clustering matrix.....	44
Table II. 8 function cess of DSM.....	44
Table III. 1 Data collection method	33
Table IV. 1 Function information of SOLAIR incinerator componenets	34
Table V. 1 Modularization with Contact and Channel Model approach	62
Table V. 2 Initial chunks of SOLAIR Incinerator	63
Table V. 3 Decomposed elements for incineration system.....	67
Table V. 4 Three main process	68
Table V.5 Three main system of SOLAIR Incinerator.....	44
Table V.6 Quantification interactions of components	70
Table V.33 Quantification interactions of components	83
Table V.35 material interactions based DSM	86
Table V.36 Material clustered matrix	86
Table V.34 Material clustered.....	85
Table V.35 Spatial interactions based DSM	86
Table V.36 Energy interactions based DSM.....	86
Table V.37 Information interactions based DSM	88
Table V.38 Material interactions based DSM.....	88
Table V.39 Clustered interaction matrix for the incineration system	89

Table V.40 Component clustered chunks	90
Table V.41 Spatial Clustered interaction matrix for the incineration system	90
Table V.42 Detrimental interactions between component	91
Table V.43 Initial chunks of SOLAIR Incinerator	93
Table V.44 Final chunks of SOLAIR Incinerator	94
Table V.45 Basic Function Components	98
Table V.46 Auxiliary function Components	98
Table V.47 Specific Function Components	98
Table V.48 List of BF AF and SF components	99
Table V.49 Specific function components	102
