

## ABSTRACT

---

*Educational institution based on its status is divided into two educational institutions and private educational institutions . Educational institutions organized by the government while private educational institutions organized by non - governmental or a private foundation. SMAN 1 Tasikmalaya is one of the leading high school in Tasikmalaya . With the condition as the underdog school , SMAN 1 Tasikmalaya required to have advanced technology in support of the activities at the school . Recording receipt of funds derived from tuition and donations of money building is still done manually . Making journals , ledgers and financial statements by the treasurer derived from daily cash book and the book is in control but the Administration still created using Microsoft Office Excel . This causes the recording process becomes longer . Application will be made to carry out the financial status of each student notification via sms gateway to the parents . This application automatically checks the student 's financial status . If there are students who do not make payment after the 10th then the application will send a message to any sms gateway parents . This application is expected to assist the school in record keeping and disbursement of the Education Support Donations and money building in financial reporting resulting financial statements precise and accurate .*
