

## DAFTAR ISI

|                                                |      |
|------------------------------------------------|------|
| LEMBAR PENGESAHAN .....                        | i    |
| LEMBAR PERNYATAAN ORISINALITAS .....           | ii   |
| ABSTRAK.....                                   | iii  |
| <i>ABSTRACT</i> .....                          | iv   |
| KATA PENGANTAR .....                           | v    |
| DAFTAR ISI.....                                | vii  |
| DAFTAR GAMBAR .....                            | x    |
| DAFTAR TABEL.....                              | xi   |
| DAFTAR SINGKATAN .....                         | xiii |
| DAFTAR ISTILAH .....                           | xiv  |
| BAB I PENDAHULUAN.....                         | 1    |
| I.1 Latar Belakang.....                        | 1    |
| I.2 Perumusan Masalah .....                    | 4    |
| I.3 Tujuan Penelitian.....                     | 5    |
| I.4 Batasan Penelitian .....                   | 5    |
| I.5 Manfaat Penelitian .....                   | 5    |
| I.6 Sistematika Penulisan .....                | 5    |
| BAB II LANDASAN TEORI .....                    | 7    |
| II.1 Ergonomi .....                            | 7    |
| II.2 Biomekanika .....                         | 7    |
| II.2.1 <i>Musculoskeletal Disorders</i> .....  | 8    |
| II.3 Nordic Body Map.....                      | 9    |
| II.4 REBA (Rapid Entire Body Assessment).....  | 11   |
| II.5 Pengembangan Produk Ulrich-Eppinger ..... | 16   |

|                                     |                                                                                            |    |
|-------------------------------------|--------------------------------------------------------------------------------------------|----|
| II.6                                | Pengembangan Produk <i>Framework Mechanical Design</i> .....                               | 18 |
| II.7                                | Perbandingan Metode Ulrich-Eppinger dengan <i>Framework Mechanical Design Phases</i> ..... | 21 |
| II.7.1                              | <i>Tools</i> dalam <i>Framework Mechanical Design</i> .....                                | 21 |
| II.8                                | Alasan Pemilihan Metode .....                                                              | 22 |
| II.9                                | Perbandingan Penelitian .....                                                              | 23 |
| BAB III METODOLOGI PENELITIAN ..... |                                                                                            | 25 |
| III.1                               | Model Konseptual .....                                                                     | 25 |
| III.2                               | Sistematika Pemecahan Masalah .....                                                        | 26 |
| III.3                               | Studi Pendahuluan.....                                                                     | 27 |
| III.3.1                             | Perumusan Masalah .....                                                                    | 27 |
| III.3.2                             | Penentuan Tujuan Penelitian.....                                                           | 27 |
| III.4                               | Tahapan Pengumpulan data .....                                                             | 27 |
| III.5                               | Pengolahan Data.....                                                                       | 28 |
| III.5.1                             | Identifikasi Kebutuhan Alat Bantu pada Proses Pengangkutan.....                            | 28 |
| III.5.2                             | <i>Target Specifications</i> .....                                                         | 29 |
| III.5.3                             | Penyusunan Konsep .....                                                                    | 29 |
| III.5.4                             | Seleksi Konsep .....                                                                       | 29 |
| III.5.5                             | Pengujian Konsep .....                                                                     | 29 |
| III.5.6                             | Spesifikasi Akhir dan Konsep.....                                                          | 29 |
| III.6                               | Hasil Analisis.....                                                                        | 29 |
| III.7                               | Kesimpulan dan Saran .....                                                                 | 30 |
| BAB IV PENGOLAHAN DATA .....        |                                                                                            | 31 |
| IV.1                                | Pengumpulan dan Pengolahan Data .....                                                      | 31 |
| IV.1.1                              | Identifikasi Kondisi Eksisting.....                                                        | 31 |
| IV.2                                | Identifikasi Masalah.....                                                                  | 32 |

|                |                                                             |    |
|----------------|-------------------------------------------------------------|----|
| IV.2.1         | Penilaian REBA ( <i>Rapid Entire Body Assesment</i> ) ..... | 32 |
| IV.2.1.1       | Ukuran Waring/karung Pengangkutan Teh .....                 | 34 |
| IV.3           | Pengolahan Data .....                                       | 34 |
| IV.3.1.1       | <i>Recognition of Needs</i> .....                           | 34 |
| IV.3.1.2       | Identifikasi Kebutuhan Pekerja.....                         | 35 |
| IV.3.1.3       | Mengatur Kebutuhan ke Dalam Hierarki .....                  | 36 |
| IV.3.2         | <i>Definition of The Problem</i> .....                      | 38 |
| IV.3.3         | <i>Syntehsis</i> .....                                      | 39 |
| IV.3.4         | <i>Analysis and Optimization</i> .....                      | 46 |
| IV.3.5         | Evaluation .....                                            | 48 |
| IV.3.6         | Presentation.....                                           | 54 |
| BAB V          | Analisis.....                                               | 55 |
| V.1.1          | Analisis Rancangan Alat Bantu Pengangkutan Teh .....        | 55 |
| V.2            | Analisis Spesifikasi Desain Usulan dan Eksisting.....       | 57 |
| V.3            | Analisis Ergonomi Desain Usulan dan Eksisting .....         | 57 |
| V.3.1          | Analisis Skor REBA Usulan dan Eksisting .....               | 57 |
| BAB VI         | Kesimpulan dan Saran.....                                   | 59 |
| VI.1           | Kesimpulan Penelitian.....                                  | 59 |
| VI.2           | Saran Penelitian .....                                      | 60 |
| DAFTAR PUSTAKA | .....                                                       | 61 |
