ABSTRACT

Beauty clinic is a place that offers profesional service related with skincare dan skin beauty, including skin regeneration process, face brightening, and fixing skin problems. Double Eight Skincare clinic design that using ergonomy approachment as the fundamental aspect is aiming to make the guests feeling comfortable with facilities provided by the clinic.

Not only facilities, baut also from other aspects that directly related with Ergonomy like health, comfiness, sirculation, furniture layout, space requirements, that get along with the supporting elements, furnitue form, lighting, and colors that appropriate with standarize the room facilities of Double Eight Skincare Clinic. By taking contemporary concept wich the concept is something new and could combining for more than two elements to create new shapes. With using 'pure health and bauty' theme, where healthiness and pure body beauty is coming from nature.
