ABSTRACT

Lembaga Amil Zakat, Infaq, and Shadaqah Muhammadiyah (LAZISMU) is a non governmental organization that manage zakat*, infaq*, and shadaqah*. Collection of funds or goods are generally carried out by donators came to LAZISMU to pay some cash to be donated in accordance with Islam, then the board LAZISMU calculate funds or goods received. In the process of recording and management of funds raised by LAZISMU still using Microsoft Excel that makes attendant difficulties in performing their duties. Reporting raising funds or goods performed if requested by the Centre LAZISMU course, is not done routinely, since it is the mandate entrusted donators to be distributed properly by the board. This application is built using the PHP programming language and MySQL database. Applications are made to help recording process management funds and goods in LAZISMU. Members also can confirm the funds already paid and get information updates.*

Keywords: recording, management, fund raising.
