

ABSTRACT

Art Building is a means to develop artistic activities as a means of education and knowledge of the arts, but the Arts in Makassar has not facilitated well of creative activities. In terms of building this building also has not been functioning as the Arts in general. The hallmark of this opera house itself beragaya Art Deco located in the city of Makassar so in this design of two styling that combines art deco and ethnic Makassar. For that to happen the alignment of both styling chose an eclectic concept as an approach. The purpose of this art building design to facilitate artistic activities as well, shows a special design that characterizes the culture that is with the eclectic Art Deco and Ethnic Makassar. Design Art Building is expected to be useful to preserve the arts and increasing public interest in the arts. As well as a means of education, recreation and as a work of art to improve the delivery of public economy in terms of art.
