

ABSTRACT

In Indonesia alone after the establishment of Bank Muamalat Indonesia (BMI) presents an opportunity to set up banks that berperinsip sharia. Oprasionalisasi BMI less reach the small and medium business community, it appears the effort to establish the bank and microfinance institutions, such as sharia BPR and BMT aiming to overcome barriers to operational areas.

Besides, in the midst of a society that lives will be all-sufficient fears the emergence of erosion of faith. Erosion of faith is not only influenced by aspects of the symbols of Islam, but also influenced by weak local economy. Therefore, the role of BMT to be able to be more active in improving the condition.

BMT is the abbreviation of the name designation microfinance institutions Baitul Maal wat tamwil or synonym hall independent business integration. Activity Baitul Maal wat tamwil is to develop productive ventures and investment in improving the quality of economic activities of small entrepreneurs with, among others, encourage saving and support economic activity, while other activities that receives deposits BAZIS of zakat, infaq and sadaqah and run in accordance with the regulations and mandate.
