ABSTRACT

Human life today is more susceptible caused by an activity and solid routine, plus the urban roads are crowded and lifestyle that forced us to look more attractive and different. It is a consideration in designing treatment place that needed space and facilities that provide services such as spa, clinic and salon. Roger's Salon, Clinic & Spa is one place that has a complete public services such as salon, clinic and spa are equipped with a wellness center. Roger 's Salon concept is exclusive, luxurious and magnificent modern nuanced this concept will distilled because there is less to present concepts in interior design. This concept will be distilled into a modern Balinese concept with the contemporer style. By taking the concept of Bali Modern, redesign it refers to the elements such us floor, wall, and ceiling with the value of Bali such us material, color, atmosfer, lighting, pattern, form space and ornament while presenting a modern atmosfer. Service Center in Roger 's Salon, Clinic & Spa, certainly has a different function with the appropriate grouping for in terms of comfort in each room a different function. Thus the required design of interior design in accordance with its function in an integrated concept with Balinese elements
