Abstract

Indonesia has so many diverse cultures. One of famous and worldwide Indonesia's cultures is wayang. Unfortunately only few of youth interested or even want to learn more about wayang. Though in wayang itself there are many morals values can be taken. Rumah Wayang made to foster youngster love in wayang art.

Rumah Wayang is an interactive website featuring wayang story and its characters. Rumah Wayang picked the story of Baratayudha Battle as the main story divided into 5 main chapters that easy enough for children to understand. Besides the story, it provided a page for children more knowing the character in the Baratayudha story.

Rumah Wayang developed with HTML, CSS, javascript and PHP. For some functionality it used the javascript library Jquery. The story page in Rumah wayang developed using parallax effect so that create space effect and looks moving more dynamically. Rumah wayang designed for children, but the adult can also use it.

Authors hope Rumah Wayang helps children have an interest in the art of wayang, so the morals values inside wayang delivered well.
