

PREFACE

This thesis has been carried out to fulfill the graduation requirements in the Graduate Program Graduation Master in Telecommunication Engineering – Telkom University with the title “Clustering Routing VDTN for Delay Control in V2V Network”.

Foremost, I would to thank to Allah SWT for the blessing so I can give my best effort to this research and finish the thesis on time.

I would like to express my sincere gratitude and thanks to:

1. My advisor DR. Ir. Rendy Munadi M.T and DR. Doan Perdana S.T M.T for the continuous guidance of my study and research and immense knowledge.
2. Shalahuddin Alayyubi and Switching Lab Team for the support to develop research simulation using One Simulator.
3. DR. Fiky Y Suratman as Head of Graduate Department for giving me support doing research.
4. The whole team in Graduate Program for the support and encouragement
5. My fellow of S2 PJJ Telkom for the simulating discussions and for all the fun we have had in the last two years.
6. PT Telekomunikasi Indonesia for the scholarship support
