

LIST OF FIGURE

Figure 2.1 MFCC Blok Diagram.....	6
Figure 2.2 Triangular Filterbank With Mel Scale	7
Figure 2.3 Comparisons of Spectra With and Without Liftering.	8
Figure 2.4 PCB BeagleBoard-xM Layout	11
Figure 2.5 Desktop-Like System	13
Figure 2.6 Simulink Library Browser.....	14
Figure 3.1 Flow chart of Database Making (a) and Speech Recognition (b)	15
Figure 3.2 Simulink Simulation Process Diagram	16
Figure 3.3 Simulink Simulation.....	17
Figure 3.4 Simulink Model of Recognition System	17
Figure 3.5 (a) mono signal (b) stereo signal	18
Figure 3.6 Recorded Signal	18
Figure 3.7 Pre-Processing Block Diagram	19
Figure 3.8 Signal Before and After Filtering.....	20
Figure 3.9 Signals Before and After Silence Removal Process	21
Figure 3.10 MFCC Block Diagram	22
Figure 3.11 K-NN Flow Diagram.....	23
Figure 3.12 Implementation Flow	24
Figure 3.13 BeagleBoard Implementation.....	24
Figure 4.1 Speech Recognition Simulation System	27
Figure 4.2 Signal Conditioning Subsystem	28
Figure 4.3 Voice Recognition Subsystem	28
Figure 4.4 Normalized Signal.....	29
Figure 4.5 Framed Signal	30
Figure 4.6 Overlap Process.....	30
Figure 4.7 Windowing Results	31
Figure 4.8 Silent Removal Result on Time Scope.....	31
Figure 4.9 Voice Recognition Result on Time Scope	32
Figure 4.10 Comparison of Mel Filterbank	33
Figure 4.11 Comparison of Overlap Length.....	33
Figure 4.12 Comparison of Window Type	34

Figure 4.13 Comparison of Coefficient Value	34
Figure 4.14 Distance and k Effect for Accuracy	35
Figure 4.15 Final Model for Speech Recognition	36
Figure 4.16 Configuring IP Address.....	36
Figure 4.17 Deploy to Hardware	37
Figure 4.18 Configuring IP Address (left) and BeagleBoard Start (right)	37
Figure 4.19 Command Window after Run (left) and BeagleBoard was running (right).....	37
Figure 4.20 Result in Time Scope	38
Figure 4.21 Preprocessing Model.....	38
Figure 4.22 Input Signal	38
Figure 4.23 Reconstructed Model	39
Figure 4.24 Tracing Matlab Program in Framing.....	39
Figure 4.25 Output until Framing.....	40
Figure 4.26 Signal Plot until Framing (left) and Signal Plot in Hamming (right)	40
Figure 4.27 Output after Windowing	40
Figure 4.28 Modified Model	41
Figure 4.29 Additional Button into BeagleBoard.....	41
