

ABSTRACT

Running regional development is one of the tasks of governance in South Aceh district . As a form of implementation increases the welfare of the people in the region , especially in South Aceh district takes effort , measures and strategies to achieve regional development . The strategy here is to implement policies and programs as an umbrella in the formulation of programs and development activities in realizing the vision and mission of the Regional Head who then called the Regent South Aceh .To realize the ideals and rapid development certainly should get full support by all elements of good governance County Government , Provincial Government and the central government in Jakarta .

Such as in the areas of governance can not be separated from the central administration system (Indonesia) . For certain things necessary relations coordination , consultation and communication between local governments both provincial and district by the central government in governance and development in the region . Therefore , in order to smooth the implementation of most of the affairs of the local government district in coordination with agency - relations agency is the department / non-department in the center as well as in the framework of socio-cultural development of the area , then to the effectiveness of an agency formed which would then be referred to the Liaison Office / Representatives of the Government of South Aceh district in the capital of Jakarta. Based on the analysis of the technical and management aspects will obtain estimates of the amount of expenditure that is used for calculating the entire cost of construction of Representative Office / Liaison South Aceh District Government in Jakarta . Both aspects are analyzed and dirangkup in the financial aspects of the investment fund in the form of requirements , operational costs to compare whether a more efficient and effective if the project is executed or not inii for APBK savings (Budget Shopping District) South Aceh.

Management office is in conformity with the expected regent , considering this project is Regents policy as head of the South Aceh district level 2 is also in charge of the project. The project site also as expected considering establishing government activities in Jakarta is not only an office but also as a means of mediation or the liaison between the County Government Center in order to more effectively and efficiently .

The most important aspect in reviewing whether or not UPTD (Department Acting Unit) is the financial aspect in such a way to be more frugal than ever before . And from this review will analyze the feasibility of the financial aspects .
