|                                                                         |     |
|-------------------------------------------------------------------------|-----|
| LEMBAR PERNYATAAN ORISINALITAS .....                                    | ii  |
| ABSTRAK .....                                                           | iii |
| ABSTRACT .....                                                          | iv  |
| KATA PENGANTAR .....                                                    | v   |
| DAFTAR tabel .....                                                      | ix  |
| DAFTAR gambar .....                                                     | x   |
| Bab I    Pendahuluan .....                                              | 1   |
| I.1    Latar Belakang .....                                             | 1   |
| I.2    Rumusan Masalah .....                                            | 6   |
| I.3    Tujuan Penelitian .....                                          | 7   |
| I.4    Manfaat Penelitian .....                                         | 7   |
| I.5    Batasan Masalah .....                                            | 8   |
| Bab II   LANDASAN TEORI .....                                           | 9   |
| II.1    Rental Kendaraan .....                                          | 9   |
| II.2    Konsep Dasar Sistem Informasi .....                             | 10  |
| II.2.1    Pengertian Sistem Informasi .....                             | 10  |
| II.2.2    Komponen Sistem Informasi .....                               | 11  |
| II.3    Konsep Website .....                                            | 12  |
| II.3.1    Aplikasi Web .....                                            | 13  |
| II.3.2    Arsitektur Aplikasi Web .....                                 | 14  |
| II.4    Konsep Portal Web .....                                         | 14  |
| II.4.1    Keuntungan dan Ciri-ciri Portal Web .....                     | 17  |
| II.5    Basis Data (Database) .....                                     | 18  |
| II.5.1    Perancangan Database dengan Entity Relationship Diagram (ERD) | 19  |
| II.6    Hypertext Preprocesso (PHP) .....                               | 20  |
| II.7    Framework Code Igniter .....                                    | 21  |
| II.8    Pemodelan Obyek Dengan UML .....                                | 23  |
| II.8.1    Usecase Diagram .....                                         | 23  |
| II.8.2    Class Diagram .....                                           | 23  |
| II.8.3    Sequence Diagram .....                                        | 24  |

|          |                                                                                           |    |
|----------|-------------------------------------------------------------------------------------------|----|
| II.8.4   | Activity Diagram.....                                                                     | 25 |
| II.9     | Konsep Pemasaran .....                                                                    | 25 |
| II.10    | Konsep E-Commerce.....                                                                    | 26 |
| II.10.1  | Pengertian <i>E-Commerce</i> .....                                                        | 26 |
| II.10.2  | Tipe E-Commerce .....                                                                     | 27 |
| II.10.3  | Karakteristik <i>E-Commerce</i> .....                                                     | 28 |
| II.10.4  | Komponen dalam <i>E-Commerce</i> .....                                                    | 30 |
| II.10.5  | Manfaat dan Kekurangan <i>E-Commerce</i> .....                                            | 31 |
| II.11    | Metode Waterfall .....                                                                    | 32 |
| Bab III  | Metodologi Penelitian.....                                                                | 34 |
| III.1    | Model Konseptual .....                                                                    | 34 |
| III.2    | Sistematika Penelitian .....                                                              | 37 |
| BAB IV   | ANALISIS DAN PERANCANGAN SISTEM.....                                                      | 43 |
| IV.1     | Analisis .....                                                                            | 43 |
| IV.1.1   | Gambaran Umum Perusahaan Rental .....                                                     | 43 |
| IV.1.2   | Analisis Proses Bisnis Eksisting Perusahaan Rental.....                                   | 44 |
| IV.1.3   | Analisis Perbandingan Sistem yang Akan Dibangun Dengan Sistem yang Sudah Pernah Ada ..... | 51 |
| IV.1.4   | Analisis Proses Bisnis Usulan.....                                                        | 52 |
| IV.1.4.1 | Analisis Kebutuhan Model Bisnis.....                                                      | 52 |
| IV.1.4.2 | Pemodelan Bisnis Usulan.....                                                              | 53 |
| IV.1.5   | Analisis Kebutuhan Sistem.....                                                            | 60 |
| IV.1.5.1 | Analisis Kebutuhan Fungsionalitas.....                                                    | 60 |
| IV.1.5.2 | Analisis Kebutuhan User.....                                                              | 61 |
| IV.1.5.3 | Analisis Kebutuhan Teknologi.....                                                         | 62 |
| III.3    | IV.2 Analisis Perancangan Aplikasi.....                                                   | 63 |
| III.3.1  | IV.2.1 Perancangan Basis Data.....                                                        | 64 |
| IV.2.2   | Perancangan Aplikasi.....                                                                 | 64 |
| BAB V    | IMPLEMENTASI HASIL DAN PENGUJIAN .....                                                    | 74 |
| V.1      | Implementasi Hasil Perancangan Sistem.....                                                | 74 |
| V.1.1    | Tampilan <i>Home</i> .....                                                                | 75 |
| V.1.2    | Tampilan Registrasi .....                                                                 | 76 |

|                                      |                                             |     |
