ABSTRACT

RumahMakan Ponyo is Sundanese restaurant is located in the province of West Java. The located is Jalan Cinunuk Bandung. The strategys locate of Rumah Makan Ponyo, it can make good level in rivalry of some restaurant in West Java.

Rumah Makan Ponyo is very limited using information technology in the system. Some are still done manually and some are also already using Microsoft Excel. Salary list system already using Microsoft Excel, but not integrated with the attendance system. Salary calculation based solely on position level.

OpenERP software will be applied to assist in making attendance system and employee payroll calculations so that the employee absences previously done manually will automatically documented attendance and report directly to the manager would be seen by the manager. Then the calculation of the salary will be calculated also on the basis of the number of employee attendance for a month. The payroll module manufacturing method surestep.
