

ABSTRACT

Srikandi Barokah is a manufacturing company engaged in the trading business yoghurt. Management of trade goods sales company has two ways, namely by cash sales and sales konsinyansi. Beginning in August 2010, there are only five traders registered as an agent, but until the end of 2016 there were 25 agents. Consignment sales is influenced by the period / time buddy who still diperiksa manually one by one for each agency each week. Inventory is updated every day at the end of working hours, without the card inventory, and reporting of sales made each month without accounting journaling. The final project is titled "Web Based Applications for Consignment and Merchandise Inventory Of Yoghurt Using First In First Out (FIFO) Method At Srikandi Barokah, Boyolali, Central Java" that can be petrified in the calculation of cash sales and consignment sales and inventories. The method used the method First In First Out (FIFO). This application will generate a report cash sales, consignment sales, and the incmentome statement.
