Abstract :

In Ponorogo Regency, East Java Province, there are four villages where most of the population consist of people with disabilities. The location of one another is very close. Some people may have heard the term “idiot village”, that's the popular name for these four village. However, it is the village of Desa Sidoharjo, which has the highest number of persons with disabilities in the amount of 301 inhabitants of the population of 6263. Although the presence of persons with disabilities as they are not new and this phenomena was already there since dozens of years ago, but the actions taken by the Central Government and the Local Government is not maximal and they still put a very minimal attention. Therefore, the authors are interested to elevate into a documentary that lasted 24 minutes to determine the objective reality on the ground. Because people on local governments assume that the handling of the case for people with disabilities in Sidowayah is good enough. The author uses a DSLR camera to support a sharp image, and certainly with the support FULL HD technology.

Keywords: Documentary, disability, Down Syndrome, Idiot Village, Ponorogo.
