

ABSTRACT

SMA Negeri 1 Baleendah has 28 extracurriculars such as : scout, PMR, paskibraka, basketball, futsal, theater and others. There are many extracurricular options. So, many students in the school follow extracurricular activities. But, many students still do not know what the achievements of the extracurricular they follow, what the kind activities of the extracurricular they choose, and what the competition of the extracurricular they can follow. Then, many students in SMA Negeri 1 Baleendah feel inefficient when they want to register as one extracurricular member. In terms of value, the problem is, coaches do not know whose students are active in extracurricular and inactive, because they do not have a list of achievements or attendance of the member of extracurricular.

Therefore, we made an application that can be accessed via pc or mobile to facilitate the students to get information about extracurricular, new member registration, attendance, member achievement, value, extracurricular coaches, number of members, and activity schedule, photo of activities, information of the competition they can follow and the achievements of what extracurricular has ever achieved and the management of value. In addition, the purpose of this website was built to provide information to parents of students and other public.
