

ABSTRACT

The National Library of the Republic of Indonesia (PNRI or Perpustakaan) is a library that included in the national requirements which are in the city of Jakarta which is the capital of the Republic of Indonesia. According to the Undang-Undang No 43 the year 2007 and Undang-Undang 1945 about library requires that the construction of the national library aims to provide service to reading, increasing penchant for reading, and made a vehicle for lifelong learning. In addition the library also serves as a vehicle of education, research, conservation, and recreational information, to enhance the intelligence of the nation (Pasal 2 and 3). In order achieve the purpose of the construction of the library was mandated in the legislation above, the national library was originally located at Salemba Raya No 28A moved on the Merdeka Selatan No 11 reason of : (a) the period of the building heritage is used on perpustakaan in Salemba Raya No 28A exceeds 30 years accounting since the year 1980 feared would affect a visitor's salvation, (b) the utilization of the space that potluck don't pay attention to visitor needs indoors it is influential on the unavailability of the reading area for children, the elderly and the visual impaired should be inside the national library collection and development, there is the addition of facilities at the National Library of audiovisual areas one of which that are not cached in one room so the room required a broad, (c) want to give more space to the reading area and discussion this often frequent visitors when holiday and ahead of the exam, (d) Perpustakaan wants the concept of modern and technology-based (ICT) for facilities that were in the Perpustakaan. See the problem and the mandate of the Undang-Undang No 43 year 2007 and Undang-Undang 1945 where to improve the reading craze so manifest Perpustakaan vision and mission, it is a concept that can support it all i.e "Stimulant Simply Library", the meaning is able to stimulus visitors to increase to interest in reading and supported by interior design not rigid as one way.
