

ABSTRACT

Pesantren is an Institutions an there is islamic da'wah in society. Islamic learning system not in a material is only taught formally lesson official but their interaction fellow pupil with preparation classroom. Education is the heart of a nation body. In the face of the future so the goal of education should enable fulfillment of the demands of the globalization era not with standing values or moral religious values as its main pillar. As for the development of schools affected by need for education and islamic da'wah didn't restrict anyone and anywhere. A boarding school is a means to facilitate and make education the islamic personality student the virtuous character, achievement and preachers the hearts can be deployed to spread religious knowledge in extended family and society. The importance of a design support for a review of the changes build a mindset to the world education and the hereafter.
