

ABSTRACT

College libraries are often referred to as the heart of the college, the college library is one of the requirements to establish a college to implement the Tri Dharma College to implement gather, select, process, treat, and airport resources to the academic community in general.

Telkom University is one of the private universities in Indonesia. The university is located in Telekomunikasi Dayeuh Kolot, Bandung Jawa Barat, Bandung, West Java. In early 2017 Telkom university has opened a library that is open library, where the library open the library that can be accessed by all students to share and receive knowledge. However there are some problems that arise from design previously, among others, brand Telkom University who has not appeared in the interior design of his, the lighting is less than the maximum, the room acoustics were not good, not the functioning of space-space optimally and facilities that do not meet the national standard library, A college library should pay attention to the comfort of visitors to the activities in it can run .

Redesigning Telkom university library with the theme Sharing knowledge and innovative and modern concept of ICT is expected to provide a sense of comfort and a feeling of want to visit to visitors.
