

ABSTRACT

Personality is one irreplaceable part from a person. Everybody must be born with different personality. There are a rare case which a person have more than one personality or have multiple personality in short. In medical term multiple personality called Dissociative Identity Disorder and a part of psychological disorder. Joker's novel is one from any other novel that told about multiple personality. This research is meant to understand the meaning of intrapersonal communication from character in the novel called Brama that have multiple personality. The research using qualitative method with Ferdinand de Saussure sign analysis. Result of this research shows that multiple personality are represented in Joker novel. The other result are, multiple personality is a group of negative emotions that form a new personality. Lastly the intrapersonal communication from a person with multiple personality are likely more complex, because each of the personality gives different perception for each things.
