

## ABSTRACT

*Over time education becomes a reference and also support human life. The importance of education encourages human beings to get their higher education. One level of education that is not less important than to get education for 9 years is a college education level. Universities have the function to educate the nation, therefore colleges must have supporting facilities that can be students and lecturers in teaching and learning activities. One of the supporting teaching and learning activities is the library. ITENAS center library is one way to develop education in the world and become a place or place that supports learning activities outside the classroom with the main task is to maintain, present and process library materials to serve the academic community. In terms of interior, ITENAS library has many shortcomings. In terms of concept and interior design, running circulation for humans, inadequate facilities, security systems that have not been maximized to the lack of attention to signage in the library. All these aspects can be a measure of visitor comfort according to their needs. By presenting the concept of Nowaday's Library is expected to give the impression of a library that more follows the times according to the needs of visitors who the majority are students.. With the selection of contemporary styling is expected to give a different impression. In addition to more designs that follow the times, also the selection of colors and materials more modern.*
