

## DAFTAR GAMBAR

|   |    |
|---|----|
| Gambar 2- 1: Sensor CT <i>Current Transformers (CT)</i> [9].....    | 8  |
| Gambar 2- 2: Sensor <i>Light Dependant Resistor (LDR)</i> [10]..... | 9  |
| Gambar 2- 3: NodeMCU [12].....                                      | 11 |
| Gambar 2- 4: Modul Relay [13].....                                  | 11 |
| Gambar 2- 5: Modul <i>Real Time Clock</i> DS3231 [14] .....         | 12 |
| Gambar 2- 6: Arsitektur MQTT.....                                   | 12 |
| Gambar 2- 7 Contoh Penerapan CloudMQTT .....                        | 13 |
| Gambar 3- 1: Gambaran Umum Sistem.....                              | 16 |
| Gambar 3- 2: Input Topik "Ampere 1" MQTT.....                       | 18 |
| Gambar 3- 3: Input Topik "Ampere 2" MQTT.....                       | 18 |
| Gambar 3- 4: Input Topik "LDR 1" MQTT.....                          | 19 |
| Gambar 3- 5: Input Topik "LDR 2" MQTT.....                          | 19 |
| Gambar 3- 6: Input Topik "Status Warning" MQTT.....                 | 19 |
| Gambar 3- 7: <i>Web Console</i> CloudMQTT.....                      | 20 |
| Gambar 3- 8: Konfigurasi IOT MQTT Dashboard .....                   | 20 |
| Gambar 3- 9: Arsitektur Sistem .....                                | 21 |
| Gambar 3- 10: Flowchart Sistem .....                                | 22 |
| Gambar 3- 11: Desain Rangkaian Prototipe Sistem.....                | 27 |
| Gambar 4- 1: Menu Notifikasi pada Android.....                      | 38 |
| Gambar 4- 2: Detail Isi Pesan Notifikasi pada Android .....         | 38 |
| Gambar 4- 3: Hasil Pengujian Sistem Monitoring Ampere Lampu 1.....  | 50 |
| Gambar 4- 4: Hasil Pengujian Sistem Monitoring LDR Lampu 1.....     | 51 |
| Gambar 4- 5: Hasil Pengujian Sistem Monitoring Ampere Lampu 2.....  | 52 |
| Gambar 4- 6: Hasil Pengujian Sistem Monitoring LDR Lampu 2.....     | 53 |
