

TABLE OF FIGURES

| | |
|---------------------------------------------------------------------------------------|----|
| Figure 1: Normal Ovary | 18 |
| Figure 2 : Polystic Ovary | 19 |
| Figure 3: Contrast Enhancement Image Level | 20 |
| Figure 4: 2D Median Filtering Using 3x3 Windowing | 21 |
| Figure 5: 6-level image and its histogram | 24 |
| Figure 6: Histogram for Background and Foreground | 24 |
| Figure 7: Otsu's Method | 26 |
| Figure 8: Otsu's Threshold Implemented on Image..... | 27 |
| Figure 9: 4-neighborhood and 8-neighborhood pixel..... | 28 |
| Figure 10: Simulation of Region Growing..... | 29 |
| Figure 11: Image segmented using 4-connected neighborhood | 29 |
| Figure 12: Region growing with 4-nb and 8nb | 32 |
| Figure 13: Segmententation with 100% accuracy | 35 |
| Figure 14: Segmententation with less than 100% accuracy | 36 |
| Figure 15: General Process Design | 37 |
| Figure 16: Original Image (a) and Cropped Image (b) | 37 |
| Figure 17: Contrast-enhanced image | 38 |
| Figure 18: Expected image result of simulation..... | 39 |
| Figure 19: Automatic Seed Initialization | 40 |
| Figure 20: Cropped Image of Left Ovary (a) and Cropped Image of Right Ovary (b) | 43 |
| Figure 21: Original image (a), Denoised Image with median filter (b)..... | 44 |

| | |
|-------------------------------------------------------------------------------------|----|
| Figure 22: Contrast-enhanced image | 44 |
| Figure 23: Preprocessed Image | 45 |
| Figure 24: Preprocessed Image (a), edge detection (b), seed initialization (c)..... | 45 |
| Figure 25: Segmented Region..... | 46 |
