

## **ABSTRACT**

The importance of education in Indonesia is vital, whether in a regular formal school or religious education. In Indonesia, more than a few people abandoned their education caused by many factors. Beside regular or formal education, people nowadays need religious education such as a boarding school. Therefore, an institution is needed to be an alternative for religious education needs and formal education as well at once for kids and people whose education was left behind. One of the institution is Pondok Pesantren dan Sekolah Penyetaraan Manarul Huda Bandung which provides boarding school facilities for religious education and equality school for people whose education was left behind. Not only for studying, but boarding school also has a purpose to forms balanced , decent, and exemplary self identity. In order to pursue this, well standardized supporting facilities are needed and so is Pondok Pesantren dan Sekolah Penyetaraan Manarul Huda Bandung designing, which atmosphere is expected to form decent and exemplary self identity.
