

ABSTRACT

DISPUSIPDA JABAR Library is a library built by the government. With the city library, the government hopes it can facilitate access to people around the city to come to the library. But in fact it has not been able to meet the needs caused by the fact that there is, the number of library visitors DISPUSIPDA JABAR Library in 2016 amounted to only 1,102 visitors. The purpose of the redesign of DISPUSIPDA JABAR Library is to make the library into a central gathering place as a community, especially in adolescent age groups for themselves in the field of education. The methodology applied in the redesign of this is through observation, and literature studies. With the redesign, it is expected the problems that exist in libraries both social issues and problems of the interior, can be resolved so as to meet the needs of society as a whole.
