

REDESIGN INTERIOR OF IMMORTAL GAME CENTER IN BANDUNG CITY

Abstact

The development of technology in the field of computer hardware allows for gamers can play video games comfortably at home. this phenomenon triggers the game center to be able to attract gamers to play in the game center. In public facilities, ambience is one way to attract consumers. The Sci-fi theme and spaceship concept were chosen with the aim of providing a new design visualization for the game center. Carrying a futuristic style, the concept of spaceship closer gamers to get carried in a Sci-fi atmosphere. The spaceship concept focuses on geometric shapes combined to create aesthetics. The use of iron, glass, aluminum and hidden lamps will give the impression of entering the space spaceship.
