

ABSTRACT

Cultural and tribal diversity is a learning that is currently being studied in one school environment SDI Al-Azhar 7 Sukabumi. In SDI Al-Azhar 7 Sukabumi was introduced to the 5th grade students assisted by teachers. Where learning about cultures and tribes is still very manual which makes the students' interest to apply cultural diversity and tribe to be reduced. Therefore, the author wants to make an alternative application of cultural and tribal cultural learning by using adobe flash as a learning medium that displays the learning materials of cultural diversity and Indonesian language, the explanation of each province and addressing the diversity to be easily interested students of SDI Al-Azhar 7 Sukabumi .
