

ABSTRACT

Fantasy is something that is related to unreality and superstitions and it only occurs inside someone's head or mind. For some people past memories will always be remembered for life, one of which is childhood memories. There are some similarities and differences when discussing about fantasy world. Everyone has their own level of imagination, for instance how it started, how is the process of the occurring of fantasy, the purpose of having the fantasy and the consequence of having the fantasy. Moreover when we are having a sexual fantasy, which is clearly dealing with our sexual desire. Even though we all want to get to the same level of satisfaction. within this particular case there are many authors who are interested in creating a masterpiece about simulation of sexual fantasy within the field of fine art.
