

## **ABSTRACT**

Schools are facilities and infrastructure to meet the needs of education. In addition to meeting the needs of education, schools can also be said to be a second home for students where more daily time is spent at school to learn and socialize with many people. The importance of comfort and completeness of facilities is certainly a major factor in the ongoing activities. One of the private schools of Istiqamah Islamic High School under the Istiqamah Foundation is the object of design. Some identified interior problems have an impact on school user activities so that activities run less effectively. In connection with development to improve facilities for the many activities, it is necessary to design a new design at Istiqamah Islamic High School located at Jalan Cijaura Girang No.14, Puragabaya Complex, Sekejati, Buahbatu, Sekejati, Buahbatu, Kota Bandung, West Java 40286.

In achieving the vision and mission of the school in shaping knowledgeable learners, believing in and having a noble character, the Natural Islamic theme is chosen and packed with a modern concept in creating a beautiful and Islamic and functional atmosphere.

To meet the needs and problems, it is necessary to redesign and develop the Istiqamah Islamic High School Bandung to improve the space program in connection with the addition of new buildings and planning facilities that have not been fulfilled.
