

ABSTRACT

Bandung is a city that has many tourist attractions. Its geographical location surrounded by mountains and has a cool air make many natural attractions of interest ranging from city park tours, gardening to camping. Lately this camping tour began a lot of interest, especially a camping tour that carries the concept of luxury or commonly called glamping (glamor camping). Glamping is a camping tour with many facilities, among others, cycling, natural tracking to burn-burning activities. In a large Indonesian dictionary a barbecue can be called a barbecue. Barbecue activities require a lot of equipment such as fans, baked goods and baked goods. The author tries to observe and look for problems on the barbeku activity in the area of Glamping Dusun Bambu by using environmental aspects to solve the problem.

Keywords : Bandung, tourism, Glamping, Environment.
