

ABSTRACT

SMA Edu Global School or commonly in short with EGS is one of the organizing institutions and the development of the education system in Indonesia which humanizes humans by respecting all aspects, including cognitive aspects, character, and talent. EGS was established in 2013 located on Jl. Kalimantan No.7, Merdeka, Sumur Bandung. EGS already has 150 students and 25 teachers who are actively teaching. EGS was established aimed at presenting a concept of holistic education and global insight. In general, after taking a high school education, students are prepared to go to college, but EGS has a special curriculum to prepare students to face the SBMPTN with a national curriculum plus those that follow the national curriculum in general and have special additions, namely completing 2 years of learning the national curriculum lessons and in the last 1 year, the focus was on completing subjects on the National Exams and SBMPTN. Edu global school (EGS) seeks to focus its students to face higher levels of education, namely universities, national and international. So in the process of learning activities which are shortened in the first 2 years, the facilities and infrastructure needed are supporting in the form of a conducive class and also educational, and facilitate extracurricular activities of students to develop the talents and talents that students have.
