

## **ABSTRACT**

*In today's era the development, life does not escape music. There are so many genres in music, there are rock, pop, jazz, funk and more. Humans don't just want to be able to listen, but want to be able to play the music. There are so many musical instruments available. Music schools are very needed, to achieve human desires that can play the instrument. The bandung jazz music school is a music school based only on one genre, namely jazz. Many music schools are mainly conceived, cannot accommodate many students who want to study, especially jazz genre. Creating a bandung jazz school is a new design to accommodate students who want to learn jazz music only. The approach to jazz in a building is the identity of a building, which makes people see that this is a jazz school. The space acoustic system used is the standard for jazz music. The aesthetics of both furniture and interior elements are identified by the jazz concept. The existence of a bandung jazz music school, is a solution to accommodate students who want to learn jazz music with facilities and identity of jazz music that makes students more stimulated by their thoughts and imagination.*
