

ABSTRACT

Marriage needs to be prepared carefully because it only happens once in a lifetime. Many wedding needs that have to be prepared but usually the bride and groom do not have time in preparing these things. For that, a place that can facilitate the needs of the bride and groom is needed to make it easier for them in preparing their needs in one roof. The interior design of this Bride Center meets the main needs in preparation before the wedding such as traditional and international wedding dress, wedding cake, invitations, salon, wedding organizer, cafe, until the production of clothes manufacturing. The theme used in this design is One Stop Wedding Shop with White Luxury concept. This concept is based on the dominant concept of marriage using white shades, whereby white symbolizes purity in marriage but still elegant impression.
