

***BOOK DESIGN OF EDUCATION TRADITIONAL GAME IN WEST JAVA
FOR CHILDREN***

ABSTRACT

Traditional games are activities that are carried out by several children to find and get pleasure that can hone creativity, shape children's personality, and regulate children's emotionality. At this time children also prefer playing with toys that are currently available. Many children now do not know traditional games from Indonesia that are no less interesting than the toys that exist today. One factor of children not knowing traditional games is their parents who think that traditional games are games that are difficult to find and difficult to make. Because the main ingredients in making traditional games at this time are increasingly difficult to find. Therefore, to increase children's interest in traditional games and also change parents' views of traditional games. A traditional educational game in West Java was created for children. This book contains solutions for parents and children to be able to make traditional games along with alternative materials that can be found around in the house. With the creation of this book, it is expected that parents and children can make traditional games with alternative materials and children can play, so that children are more familiar with traditional game culture and also children become more active and can channel their creativity.
