

REDESIGN INTERIOR OF WEST BANDUNG SAMSAT OFFICE

ABSTRACT

Nurmega Pathidina. 1603144202. 2018. Interior Design Office Samsat West Bandung. Introduction to Final Project: Interior Design Study Program, Faculty of Creative Industry. Telkom University. Samsat is a public service office that has started to implement technology. However, the purpose of Samsat office still has not been achieved. Therefore, it is necessary to redesign the user's activities to be contained in the applicable rules.

The design method used is divided into two step. The first one is data collecting, which are literature study on government offices, samsat offices, various services contained in Samsat Office and comparative studies on buildings with similar functions, common goals and similarity of design concepts. The second method is data analysis based on the special requirements of the building include space program, theme, and concept. The results of the data analysis are then combined with the design concept based on the chosen approach. It results the Interior Redesign of West Bandung Samsat Office, with the concept of Green Building.

The chosen Green Building concept that is applied in West Bandung Samsat Office can accommodate user activities according to standard, and it can improve user convenience.

Keywords: Interior Redesign, West Bandung Samsat Office, *Green Building*.
