

ABSTRACT

In today's Era the development is growing so fast and demands everyone to be able to learn and master of the science that they want to learn. Therefore after completed education in senior high school all students want to continue their study at college in order to develop and increase their knowledge .To focused more on one subject, college is one of the best options for studying. Tiranus Bible Collage is located in Bandung that has the vision and mission to produce students who have a faithful and obedient heart to the God and spread the gospel to the whole world. Therefore the Tiranus Bible College is the good place for students who want to learn more about bible of Christianity. But in this school still do not apply the school identity in the rooms and with other problems such as circulation and the layout rooms that is still not good, the rooms esthetics are still lacking, lighting is still not good and facilities are still not completed yet. To solve these problems then use theme of identity STAT and postmodern concept to provide solution.
